

## NANCY'S CIRCLE

Nancy Hendrix was a pottery teacher for the City of Virginia Beach. She taught many students over the course of her career and influenced their work tremendously. For many in CDA, Nancy was our first teacher.

She was very instrumental in the Empty Bowls project and she would tell her students each week, "when you throw, make an extra for Empty Bowls." When Nancy died in an automobile accident several years ago, CDA wanted to honor her, her work ethic and tenacity. We accomplished that by creating a special pin for potters who donate twenty or more bowls.

That is the Nancy's Circle Pin. We continue this tradition year after year.
